Covid-19 Protocols for 2022-2023

To create a rehearsal and performance environment where all can focus on and fully enjoy the musical experience, we require all singers to show proof of vaccination. We further encourage all of our vaccinated singers to stay current with any available boosters.

Our policy regarding wearing masks in rehearsals and concerts will be tied to the Covid-19 Community Level for Lackawanna and Luzerne Counties that is updated weekly by the CDC at:

[COVID-19 by County | CDC](#)

As long as Lackawanna and Luzerne counties are assessed to be at the “low” or “medium” risk levels, masking will be optional. We will continue to rehearse in the large sanctuary at Langcliffe Presbyterian Church with wide spacing of singers and the use of air-filtration and purifying devices. Singers who wish to do so can also ask to sit in the back row of their voice section.

Should the CDC move the risk level to “high” for either county, we will immediately move to “masks required” for that week.
